Research Interests

Software Engineering, Software Traceability, Requirements Satisfaction Analysis, Natural Language Processing, Deep Learning

Education

05/2017(Expected) **University of Notre Dame**, Notre Dame, USA
Ph.D. Candidate in Computer Science and Engineering

Advisor: Dr. Jane Cleland Huang
Dissertation: Semantically Enhanced Software Traceability
Committee: Collin McMillan, David Chiang, Jane Hayes (University of Kentucky)

06/2009 **Xian Jiaotong University**, Xi'an, China
M.S. in Information and Communication Engineering

06/2006 **Xian Jiaotong University**, Xi'an, China
B.S. in Information Engineering

Employment Experience

07/2016 - Present **Research Assistant**, University of Notre Dame, Notre Dame, USA

- *Semantically Enhanced Software Traceability Using Deep Learning Techniques*: designed a tracing network architecture that utilized Word Embedding and Recurrent Neural Network (RNN) to extract and compare semantic information from software artifacts for the purpose of software trace link generation.

01/2013 - 06/2016 **Research Assistant**, DePaul University, Chicago, USA

- *Domain Knowledge Mining*: designed and implemented a knowledge mining approach that leveraged trace links in software intensive systems to guide the process of extracting domain facts for supporting software engineering tasks.
- *Intelligent Domain-Specific Traceability*: designed and implemented solutions for accurate trace links creation between software artifacts and generated the underlying rationales explaining those links utilizing natural language processing and knowledge representation techniques.

06/2009 - 07/2011 **Researcher**, Communication Technology Lab, Fuji Xerox, Yokohama, Japan

- *SkyDesk collaboration service*: designed and implemented image processing algorithms to extract and correct business card and whiteboard regions from images with complex backgrounds.
- *Image comparison*: designed and implemented a fuzzy image comparing algorithm for the purpose of printer software testing.

10/2007 - 07/2008 **Visiting Research Fellow**, Communication Technology Lab, Fuji Xerox, Nakai, Japan

- *Sensing UI*: participated in designing and implementing a novel human-computer interface based on 3D tracking technologies and took charge of the image processing module.

Teaching/Mentoring Experience

Guest Lecturer — Coordinated series of debates on *Ethics in Drone Use*
CSE-40773: Software Projects with Drones, University of Notre Dame. (Fall, 2016)

Guest Lecturer — Lectured on *Design Patterns* and *JavaFX* tool, Organized Lab Activities
SE350: Object-Oriented Software Development, DePaul University. (Spring, 2016)

Invited Speaker — *Ontology Learning for Software-Intensive Projects*
CSC 480: Artificial Intelligence, DePaul University. (Spring, 2016)

Invited Speaker — *Towards an Intelligent Domain-Specific Traceability Solution*
CSC 395: Research Colloquium, DePaul University. (Fall, 2014)

Project Mentor — Managed and mentored two graduate students who served as research assistants on software engineering research projects, DePaul University. (2013-2014)

Invited Speaker — *The Domain-Specific Expert Traceability System*
CSC 395: Research Colloquium, DePaul University. (Fall, 2013)

Co-Instructor — Lectured on *Image Processing and Pattern Recognition*
Internal Tutorial, Fuji Xerox. (Fall, 2009)

Publication

Journal Articles — **Guo, J.**, Gibiec, M., and Cleland-Huang, J. "Tackling the term-mismatch problem in automated trace retrieval". In: *Empirical Software Engineering* (2016), pp. 1–40. DOI: 10.1007/s10664-016-9479-8

Conference — **Guo, J.**, Cheng, J., and Cleland-Huang, J. "Semantically Enhanced Software Traceability Using Deep Learning Techniques". **Accepted to**: *the 38th International Conference on Software Engineering, ICSE 2017*. (Acceptance rate: 17%)

Patents Issued

Guo, J. and Onishi, T. "Subject region detecting apparatus". Pat. 8,805,077. Aug. 12, 2014

Guo, J. and Onishi, T. "Image processing apparatus, image processing method, and computer readable medium". Pat. 8,923,610. Dec. 30, 2014

Activities and Service

Co-Organizer	The 1st, 2nd, and 3rd International Workshop on Artificial Intelligence for Requirements Engineering (AIRE). 2014–2016
Prog. Committee	The 25th International Requirement Engineering Conference (RE) Data Track. 2017
	The 5th International Workshop on Realizing Artificial Intelligence Synergies in Software Engineering (RAISE). 2016
	The 8th International Symposium on Software and Systems Traceability (SST). 2015
Stud. Volunteer	FSE'16, RE'15, KDD'13, RE'12

Honors and Scholarship

2016	*NSF Travel Fund*, Workshop on the Naturalness of Software
2013 – 2015	*Summer Research Fund*, DePaul University
2013	*Ready-Set-Transfer Award*, 21st IEEE International Requirements Engineering Conference
07/2011	*Chief Minister's Research Award*, Fuji Xerox
11/2005	*Siyuan Scholarship*, Xi'an Jiaotong University
2002 – 2006	*Innovation Fund*, Xi'an Jiaotong University
